LA BELLEZZA NON HA CONFINI

Fabbro Yachts is a premium yacht design and production company known for their exceptional craftsmanship, attention to detail, and use of the finest materials available.

At Fabbro, we specialize in creating one-of-a-kind yacht designs that are as unique as they are beautiful. Drawing on the rich heritage of design culture, our team of expert designers and craftsmen work tirelessly to bring every aspect of the yacht to life, from the sleek lines of the hull to the luxurious finishes of the interior.

We believe that every Fabbro model is more than just a vessel – it's a work of art that embodies the timeless elegance and beauty of the sea. That's why we approach every design with a passion for perfection, striving to create yachts that exceed even the highest expectations of our clients. From the initial concept design to the final finishing touches, we pay meticulous attention to every detail, ensuring that each yacht is a true masterpiece.

CRAFTED WITH PASSION, DESIGNED WITH PRECISION...

Fabbro brings together the best craftsmanship and cutting-edge technology to create yacht designs that embody the limitless beauty of the sea

As the Italians say, "La bellezza non ha confini," or "beauty knows no boundaries." We embrace this philosophy in our work, creating yacht designs that are not only beautiful but also highly functional and efficient. With our experienced craftsmanship and attention to detail, you can be sure that every aspect of your yacht has been carefully designed and built to the highest standards of quality and excellence.

EXTERIOR DESIGN

The exterior design of Fabbro F45 is a perfect blend of functionality and elegance, with sleek lines and a streamlined profile that not only enhance the yacht's performance but also exude a sense of timeless style.

At Fabbro, we understand that the exterior design of a yacht is crucial in determining its performance on the water, which is why our team of expert designers has meticulously crafted the hull and superstructure of the Fabbro F45 to ensure optimal speed, stability, and maneuverability.

The Fabbro F45 features a stunning exterior design that is sure to turn heads on the water, with a sleek, modern profile that is complemented by high-quality materials and impeccable craftsmanship.

INTERIOR DESIGN

The interior design of the Fabbro F45 is a testament to our commitment to creating yachts that are both functional and beautiful, with a range of customizable options that allow you to create a living space that is tailored to your specific preferences and needs.

Most aspect of the Fabbro F45's interior is customizable, allowing you to create a living space that is a true reflection of your personal taste and style.

Our commitment to using only the finest, most durable materials ensures that your Fabbro F45 will not only look stunning but will also stand the test of time, even in the harshest marine environments.

Key Features

Performance/Engineering

Fabbro Yacht's F45 model is a boat that appeals to speed enthusiasts. Thanks to the Volvo engines, this boat can reach high speeds and its V-shaped underwater design allows for efficient speed. The flat and narrow angled bow structure allows it to easily cut through the waves. With its high sides and lateral lines, spray waves are no longer a problem. Thanks to the hull design of the F45, high maneuverability is ensured and even the most difficult maneuvers can be easily performed in a stable manner.

The Fabbro Yacht F45, produced with the infusion method of GRP, is both durable and long-lasting. With its unique hull and underwater design, it provides a comfortable experience at sea. With waves no longer being a problem, the boat provides an enjoyable ride during the journey. In addition, the spray rails placed on the boat ensure stability during acceleration and make maneuvers easier. These features, resulting from high engineering, aim to provide Fabbro Yacht F45 users with maximum driving pleasure.

Walk Around Design

The F45 model is designed with the user's maximum efficiency in mind. With its wide T-Top design, it is minimally affected by the sun, while its adjustable sunroof ensures constant air circulation for your comfort. Unlike simple fabric T-Top designs, even in the worst sea conditions, you will be minimally affected by the waves in the F45.

The Walk Around deck provides easy access to all sides and offers ample space for all passengers, even in busy boat usage. The front and rear sunbathing areas allow many people to enjoy their time together, while the seating and dining areas provide a comfortable and private experience. The Walk Around design of the F45 is specially designed to provide quick access to every area, even during maneuvering. With its high bulwarks, it ensures a safe trip with your family, and its wide walkways make you forget that you are on a boat. The spacious and maneuverable stern platform provides an unhindered experience for multiple people to enjoy on the boat at the same time.

Innovation

The F45 model stands out with its state-of-the-art automation systems. You can easily control all the systems of the boat through large screens and also access all information easily from your tablet or phone. F45 has a joystick that allows you to navigate easily with one single movement of a hand. Designed specifically for sea lovers who want to experience long-lasting experiences, F45 allows you to stay far enough away from the land even on long journeys thanks to its high tank capacities. Low fuel consumption Volvo engines and high fuel capacity tanks add joy to your long-lasting experiences. In order to keep the seas cleaner, we have also increased the gray and black tank capacities. With its high electricity capacity, F45 offers a generator-free journey even in the quietest coves. In addition, there is a special sound insulation that ensures your children sleep peacefully inside. The F45 model is designed to provide the most comfortable experience, especially on long journeys, and all its details make your life easier.
